

HRISTO PAVLOV

SOFTWARE ENGINEER

INTRODUCTION

I am a meticulous problem-solver with an excellent work ethic and strong foundation and understanding of computer science. I flourish in collaborative environment, making an extra effort to ensure the delivery of top-quality products.

I know communication is key, and I strive to share concepts, progress and knowledge with colleagues as clearly as possible. I am confident in my ability to contribute to any team and project. I love going after new challenges in pursuit of more knowledge, experience and growth.

WORK EXPERIENCE

Full Stack Engineer

Akkodis Group 2022-2023

- Work on large scale Hapi.js back-end as well as Java backend, which are used in multiple projects.
- Work on implementing functionality with a 3rd party data and service provider (VONQ), which is used in several recruitment projects.
- Pair-programming with other developers thanks to adaptability and the ability to quickly pick up and thrive in a new professional environment.
- Part of an Agile team with a key role in delivering multiple complex features most of the time ahead of schedules.

Tech Stack:
